

JWCC Curated Portal - Release Notes

Release 2026.05.01

Please visit [Product Availability by Region](#) and select *Azure Government* in the drop-down menu or [Azure Government product General Availability \(GA\) roadmap - Azure Government | Microsoft Learn](#) to see the list of all services available in the JWCC Catalog.

The services below have been added to the JWCC catalog under the JWCC IDIQ Mod 10 provision allowing unauthorized services to be added provided they are scheduled to be submitted to DISA for authorization. Since these services **DO NOT** carry an authorization, they should not be used in a production environment until authorization is reached.

Azure Arc-Enabled SQL Server SQL Server on Azure Virtual Machines

Microsoft is currently working to adjust the Azure Portal UI to display a Disabled state for any products not in the Catalog. Please note if a product is not in the Catalog, it will be blocked for provisioning through the Curated Portal JSON file even if it doesn't appear as 'Disabled' in the Azure Portal UI.

If you notice any issues that are related to the Curated Portal JSON Policy implementation, please file a Support Request and include Curated Portal in the title so the team can quickly address your issue. Curated Portal issues could present themselves in two ways:

1. An error message stating that the action on an authorized service is blocked by Policy...
2. A greyed-out button in an authorized service that blocks deployment of that service

If possible, please include a screenshot or the text of the error message or UI problem in your Support Request to enable quicker incident resolution.

The Curated Portal – Azure AI Services definition and parameter files are now available for download! Please apply these files to ensure you have the correct Azure AI Service experience.

We appreciate your patience as we continue to improve the Curated Portal experience!

Resource Type/Kind Additions

Resource types/kinds added based on file cleanup and/or cloud updates

App Service

- microsoft.web/aigateways
- microsoft.web/aigateways/connections
- microsoft.web/aigateways/mcpserverconfigs
- microsoft.web/aigateways/triggerconfigs
- microsoft.web/connections/accesspolicies
- microsoft.web/serverfarms/startsites
- microsoft.web/serverfarms/stopsites
- microsoft.web/staticsites/networkconfigs

Azure Arc-Enabled SQL Server (Mod 10)

- microsoft.azurearcdata/locations/operationstatuses
- microsoft.azurearcdata/operations
- microsoft.azurearcdata/register

- microsoft.azurearcdata/sqlserveresulicenses
- microsoft.azurearcdata/sqlserverinstances/availabilitygroups/adddatabases
- microsoft.azurearcdata/sqlserverinstances/availabilitygroups
- microsoft.azurearcdata/sqlserverinstances/availabilitygroups/failover
- microsoft.azurearcdata/sqlserverinstances/availabilitygroups/failovermilink
- microsoft.azurearcdata/sqlserverinstances/availabilitygroups/forcefailoverallowdataloss
- microsoft.azurearcdata/sqlserverinstances/availabilitygroups/getdetailview
- microsoft.azurearcdata/sqlserverinstances/availabilitygroups/removedatabases
- microsoft.azurearcdata/sqlserverinstances/createavailabilitygroup
- microsoft.azurearcdata/sqlserverinstances/createdistributedavailabilitygroup
- microsoft.azurearcdata/sqlserverinstances/createmanagedinstancelink
- microsoft.azurearcdata/sqlserverinstances/databases
- microsoft.azurearcdata/sqlserverinstances
- microsoft.azurearcdata/sqlserverinstances/getjobsstatus
- microsoft.azurearcdata/sqlserverinstances/gettelemetry
- microsoft.azurearcdata/sqlserverinstances/postupgrade
- microsoft.azurearcdata/sqlserverinstances/preupgrade
- microsoft.azurearcdata/sqlserverinstances/runmanagedinstancelinkassessment
- microsoft.azurearcdata/sqlserverinstances/runmigrationassessment
- microsoft.azurearcdata/sqlserverlicenses
- microsoft.azurearcdata/unregister

Azure Communication Service

- microsoft.communication/checknameavailability
- microsoft.communication/communicationservices
- microsoft.communication/communicationservices/eventgridfilters
- microsoft.communication/communicationservices/linknotificationhub
- microsoft.communication/communicationservices/listkeys
- microsoft.communication/communicationservices/networksecurityperimeterassociationproxies
- microsoft.communication/communicationservices/networksecurityperimeterconfigurations
- microsoft.communication/communicationservices/networksecurityperimeterconfigurations/reconcile
- microsoft.communication/communicationservices/regeneratekey
- microsoft.communication/communicationservices/smtpusernames
- microsoft.communication/communicationservicesgcm
- microsoft.communication/communicationservicesgcm/eventgridfilters
- microsoft.communication/communicationservicesgcm/linknotificationhub
- microsoft.communication/communicationservicesgcm/listkeys
- microsoft.communication/communicationservicesgcm/regeneratekey
- microsoft.communication/emailservices
- microsoft.communication/emailservices/domains
- microsoft.communication/emailservices/domains/cancelverification
- microsoft.communication/emailservices/domains/initiateverification
- microsoft.communication/emailservices/domains/revokeverification
- microsoft.communication/emailservices/domains/senderusernames
- microsoft.communication/emailservices/domains/suppressionlists
- microsoft.communication/emailservices/domains/suppressionlists/suppressionlistaddresses
- microsoft.communication/emailservices/verifiedexchangeonlinedomains
- microsoft.communication/locations/notifynetworksecurityperimeterupdatesavailable
- microsoft.communication/locations/operationstatuses
- microsoft.communication/locations/usages

- microsoft.communication/operations
- microsoft.communication/register
- microsoft.communication/registeredsubscriptions
- microsoft.communication/unregister

Azure Container Apps

- microsoft.app/locations/supportedagentmodels

Azure Database for PostgreSQL

- microsoft.dbforpostgresql/flexibleservers/maintenanceevents/applynow
- microsoft.dbforpostgresql/flexibleservers/maintenanceevents/getmaintenanceevent
- microsoft.dbforpostgresql/flexibleservers/maintenanceevents/reschedule

Azure Databricks

- microsoft.databricks/workspaces/dbworkspaces/dbprivateendpointconnections
- microsoft.databricks/workspaces/dbworkspaces/privatelinkresources

Azure Firewall

- microsoft.network/firewallpolicies/pacfile

Azure HPC Cache

- microsoft.storagecache/amlfilesystems/expansionjobs

Azure Local

- microsoft.azurestackhci/clusters/deploymentsettings/deploy
- microsoft.azurestackhci/virtualmachineinstances/guestagents

Azure Migrate

- microsoft.offazure/mastersites/import
- microsoft.offazure/mastersites/jobs
- microsoft.offazure/mastersites/sqlsites/discoverysitedatasources/operationsstatus

Azure Monitor

- microsoft.insights/logs/data
- microsoft.operationalinsights/workspaces/query/appgenaicontent
- microsoft.operationalinsights/workspaces/query/automationaccounts
- microsoft.operationalinsights/workspaces/query/azuremonitorpipelineerrors
